

Dual Energy

Eligibility Criteria - Checklist

1 Eligible categories

Category 1: Replacement of a natural gas central heating appliance and addition of an electric central heating appliance in an existing home.

Category 2: Addition of an electric central heating appliance to an existing home where the replacement of the natural gas central heating appliance will occur at a later date.

2 Type of home

UDT

- Single family or condo unit
- Duplex or triplex

Multitenant

- 4 to 19 units

3 For whom?

- The program is only available to Énergir customers who use natural gas for heating in UDT and multitenant (4-19 units) buildings.
- Any application for work already completed prior to the launch of the offer is not eligible for the Offer.

4 Other eligibility criteria

The Énergir client must:

- Be the owner of the building where the work is to be done;
- Not have been registered for the dual-energy rate (Hydro-Québec) in the last 12 months;
- Have been using natural gas for central heating in the building where the work is to be done for a minimum of 12 months (from signing of the contract);
- The number of units covered by the work does not exceed 19;
- Subscribe to HQ's residential dual-energy rate DT for a period of 10 years.
